The Cope Company Salt Joins ISNETworld

Lancaster, PA, - The Cope Company Salt, Lancaster, is now a member of ISNetworld, a global contractor supplier management resource. ISNetworld connects hiring clients with approved contractors to help ensure compliance with health, safety, quality, regulatory and procurement standards. The Cope Company Salt achieved recognition by meeting and exceeding criteria that identified the company as a safe and sustainable contractor.

The Cope Company Salt manufactures the AUTOBrine® System, which is an automatic brine system that solves the problem of the time-consuming, costly, and painstaking task of managing water conditioning salt brine levels. The AUTOBrine System cuts costs and eliminates risks associated with handling heavy salt bags. AUTOBrine also helps users reduce their carbon footprint.

ISNetworld has more than 60,000 contractors and suppliers across multiple industries in 75 countries. For more information refer to <https://www.isnetworld.com>.
